

Our Philosophy:

We understand that your child comes to us with unique experiences, interests and learning styles. Our goal is to truly know your child well and use this knowledge to guide, support and motivate him or her. We believe that good teaching requires continual professional development, personal reflection and collaboration. We value parent involvement at every level and encourage you to partner with us to give your child the most powerful and joyous learning experience possible.

About Us:

Miss Tammie, our Lead teacher, is a certified American Montessori Society Head Teacher. She brings additional experience in Child Development, Family Counseling, and American Sign Language. Our assistants work closely with her to ensure your child receives care and consideration for their individual needs as they progress through our programs. The Children's House of Miss Tammie is also registered with the Illinois State Board of Education.

Behavior Expectations:

We have high expectations for the students in our room. We expect the students to achieve academically to their fullest potential. We expect students to contribute in a positive manner to our classroom. The following is a list of rules for room 131.

1. Show respect
2. Make good decisions
3. Solve problems

We will be using the "color chart" system to help monitor these behaviors. You will receive information about your child's behavior each week.

Things You Can Do At Home To Help Your Child At School:

- * Read to your child and allow them to read to you.
- * Ask your child about school and take an interest in what they are learning.
- * Make sure they get enough sleep.
- * Set limits on the amount of television they watch.
- * Make sure they have enough to eat. (We have a breakfast and lunch program available at North South.)

Communication

Education is a partnership between home and school. We value parent involvement at every level and encourage you to partner with us. In order for this partnership to be effective, we need to be able to communicate

Please feel free to call, write a note, or e-mail us if you have concerns or questions about your child's education. We are always available to schedule a conference to discuss any issue or concern you have regarding your child.

Montessori School

If paying monthly, fees are due on the 1st of every month. We also accept weekly payments. Fees must be paid every Monday morning when your child is dropped off. There is a \$10.00 fee everyday your payment is late.

Important Information

*We accept children ages 3 - 6

*Your child must be toilet trained to attend our summer program.

*An up to date health form for each child who is registered must be completed by your child's physician and returned to us. We must have this in your child file prior to June 2, 2010 .

A Montessori Program...

Is enriched with special units and complimentary exercises in art, geography, music, science and physical motor activities. We have also implemented basic computer skills into our program as well as sign language.

Our Montessori trained staff works hard throughout the year to provide consistency

and creativity in keeping with the child's inquiring mind. Our summer program is filled with fun, fun, fun. Take a look at our calendar for a sneak peek.

What is Montessori?

Montessori is a personalized approach to learning which recognizes that each child learns with a unique style and pace, and that children learn best in a prepared environment which supports and respects their individual development. It is also based on the premise that the intellectual, physical and social needs of children are inseparable and equally important. The century-old Montessori method is based on how children learn naturally, and many believe it is the way every child should have the opportunity to learn. Montessori children develop positive attitudes about learning, a positive image of themselves as learners and a strong sense of independence and responsibility. The Montessori experience produces self-motivated, self-disciplined, independent learners with characteristics that benefit them throughout their school years and into adulthood.
